The 2009 USC Charity Ball

Wednesday night, April 1st 2009, April's Fool! Simply the perfect night for the Trojan family in Indonesia to gather around with their long lost friends and colleagues, in the first ever USC Charity Ball.

Attended by over 500 business and society figures, half of whom are Trojans; our event reached its charity goal, helping the WIJABA (the World Is Just A Book Away) non-profit foundation to start building a library in impoverished Porong, Sidoarjo.

This event started when a few committee members received reports that young children in Porong has had to learn reading thru scrap manuals of vcd players, because there is no library nor reading materials available for them.

Coincidentally, James Owens, a USC faculty member, has started WIJABA, which believes that to open a kid's eyes to the world, they just need books to do so.

By the end of the evening, a total of IDR 300 million has been raised, 100% of which will be donated to WIJABA's cause to build a library for the children of Porong

Wine tasting, a variety of games, and a chocolate/cupcakes booth (!) kept everyone busy.

It was April's Fool, yet the Trojans took the first step, helping ensure no one will be a fool, specifically in Porong, Sidoarjo.

Fight ON !

VANESSA HENDRIADI, CHAIR

USC MARSHALL SCHOOL OF BUSINESS

MBA CLASS OF 2002

“ What an experience organizing such an exciting event! There is a strong bond that I felt throughout the rigorous preparation of this Charity Ball, which is the spirit of togetherness we have as a Trojan family. We all share the same vision to help others in needs. Regardless of how busy each of us was, everyone in the team poured their heart and mind into making this event a success. The guests had a great time and we raised twice the amount of money we targeted for WIJABA. It has marked the beginning of an exciting road ahead for AUSCI. As the Event Chair, I am passing the baton to the next champ. Who is the taker ? Fight ON ! “

“ This experience has taught me many things, I learned how resourceful and relentless Trojans are in working together to create this wonderful event. I’m honored to know and work alongside these Trojans.

Fight ON !
